

Product Description

This 4U server case system is used for storage power, such as telecommunication stations, UPS and other filed of storage. Due to its superb scalability, you can expand your server system easily. With unmatched cooling system and excellent dust resistance, it will work smoothly over its life span.

Specifications

Item	Parameters
Model	GS-4U-48V 44Ah
Battery capacity	44Ah
Rated voltage	51.2V
Rated energy	2.3KWh
Communication interface	RS232 and RS485
Weight	29Kg
Dimensions(L*W*H)	442*178*280mm(4U)

Characteristic

1. High efficiency and reliability power
2. High scalability and expandability
3. High frequency
4. Digital, Intelligent and Networking
5. Green, Energy-saving and environmental friendly

Application

浙江谷神能源科技股份有限公司

Zhejiang Godsend Power Technology Co., Ltd.
